

Guardian Aware

HOW DO WE HELP YOU SUCCEED?

WWW.ENABLR.TECH

Turn awareness into a tangible business advantage.

Enabler Guardian Aware transforms your workforce into your strongest line of defence by delivering structured, engaging cybersecurity awareness training. It empowers employees to recognise, resist, and report threats such as phishing, social engineering, deepfakes, and ransomware. With role-based modules, interactive simulations, and continuous reinforcement, Guardian Aware ensures your people stay vigilant, compliant, and resilient — no matter how complex the threat landscape.

A SINGLE PANE OF GLASS, UNIFYING CONTROL

Guardian Aware provides a unified dashboard where organisations can manage training progress, track resilience metrics, and monitor employee engagement. This single pane of glass simplifies oversight and builds confidence in your human firewall.

Performance

Guardian Aware ensures application-aware learning: training adapts to employee roles, risk exposure, and evolving threats. This guarantees consistent improvement in cyber hygiene across the organisation.

Lower Costs

By reducing human error — the root cause of over 60% of breaches — Guardian Aware lowers the risk of costly incidents. Structured awareness programs cut breach costs by hundreds of thousands of rand annually, while improving compliance with frameworks like ISO 27001, GDPR, PCI-DSS, and NIST CSF.

Concierge

Enabler pairs Guardian Aware with Concierge Service — proactive support and seamless program management that builds trust through certainty, transparency, and customer-first service.

TECHNOLOGY AGNOSTIC

Guardian Aware is technology-agnostic, designed to integrate with your existing IT and HR systems. Whether you want to enhance current awareness efforts or deploy a new program from scratch, Enabler delivers trusted support and seamless outcomes.

Self/Co-Managed

Customers can retain hands-on control of training schedules and reporting while benefiting from Enabler's experts as an extension of their team. This model suits organisations that want visibility and influence over awareness policies but also value expert guidance.

Gains

Guardian Aware delivers measurable gains across visibility and efficiency. Our customers gain full visibility into training progress and resilience metrics, empowering smarter decisions and compliance confidence. By embedding awareness into daily practice, employees build confidence and certainty in their digital tasks, turning awareness into a tangible business advantage.

Enabler Managed

For simplicity and certainty, Enabler offers a fully managed Guardian Aware service. Our certified staff take responsibility for design, rollout, monitoring, and ongoing optimisation — ensuring secure, high-performance awareness across your workforce.

We've Mastered Technology, so you don't have to.

Take the next step toward a smarter, more resilient network.

Partner with Enabler today and let our certified team help you unlock efficiency, win back time, and build certainty into your operations.

FEATURES

- Unified experience across roles
- Compliance with global standards
- Reduced breach risk and costs
- Continuous reinforcement, not one-off training
- Operationally friendly, employee-centric design

Benefits

- Unified experience across roles
- Compliance with global standards
- Reduced breach risk and costs
- Continuous reinforcement, not one-off training
- Operationally friendly, employee-centric design

Your context drives our service

At Enabler, our experts have mastered awareness training so you don't have to. We design programs around the realities of your operation — compliance requirements, the needs of your people, and the constraints of your budget. By combining technical mastery with business empathy, Guardian Aware delivers certainty and time back every day.
