ABOUT CONCIERGE

At Enabler Technologies, our Concierge Service isn't something bolted onto our solutions — it was built from the ground up as an integral part of everything we deliver. Whether we are connecting your business, protecting your business, transforming your business, integrating your business, or managing it, Concierge is woven into the fabric of our products and services.

This means we don't just provide technology; we align it directly with your business strategy, continuously monitoring thresholds and levers, and reporting on the business lifecycle through the lens of technology. The outcome is certainty: IT stops being a cost centre and becomes a strategic revenue centre that invisibly leads your organisation forward through visibility, data-driven operations, compliance, and enhanced customer experience.

OUR MISSION

"

Technology has the power to change how we work; driving efficiency, productivity and growth. Yet all too often, organisations invest in infrastructure and cutting-edge technology only to miss out on the potential business value it could deliver. Why?

Technology alone isn't enough — without the right skills to manage change, transition, and ongoing support, even the best solutions fail to deliver their potential.

- *Beyond*, Business Tech study 2025

"

Technology journey guidance
Monthly reviews to help you design, implement and achieve your business goals

Fast and easy setup
Get up and running fast, and continuously fine-tune configurations to customise your experience.

Business Lifecycle reporting
Measuring the solutions we deploy and reporting on them based on the intended value to you.

Rapid Response
Detect and investigate critical events within five minutes. Resolve within SLA.

Real-time remediation
Around-the-clock security coverage from Managed Services Specialists.

Embedded End-User Support
By embedding support into the lifecycle of your business, we reduce friction, accelerate adoption, and keep IT aligned.

Dynamic Skills
By embedding support into the lifecycle of your business, we reduce friction, accelerate adoption, and keep IT aligned.

THE ENABLER DIFERENCE

Concierge Services Team

The Enabler Technologies Concierge Team helps you navigate today's challenges with responsive, managed support, while preparing you for tomorrow through strategic guidance and tailored reviews of your organisation's posture. Acting as your trusted advisor, the team ensures you gain maturity and confidence across every stage of your journey — whether in technology, branding, operations, or culture.

That's why leading SMBs, MSPs, and enterprise organisations across industries such as financial services, legal, healthcare, utilities, and municipalities rely on Enabler Technologies to deliver consistent, positive outcomes. With our concierge approach, your solutions remain aligned to defined parameters, resilient against risks, and customised to your environment.

EXPERTISE

Drive flawless execution and operational excellence, equipped with the expertise to identify advanced threats and mitigate risks — all in a way that's tailored to your specific environment. Ensuring your solution consistently operates within its defined parameters, maintaining reliability, resilience, and alignment with your business goals.

COVERAGE

Around the clock to deliver actionable insights exactly when you need them most. This isn't a one-off service — it's a continuous commitment. Whether it's urgent incidents, long-term projects, or ongoing initiatives, our concierge team ensures you're supported at every stage, so you can focus on outcomes with confidence.

STRATEGY

Our concierge approach aligns technology directly with your business strategy, ensuring every solution delivers measurable value to your goals. We don't just keep systems running — we continuously evaluate performance against the outcomes that matter most to your organisation. In doing so, IT stops being a traditional cost centre and becomes a strategic enabler of growth, innovation, and revenue.

OPERATIONS

Our Concierge Service actively manages and monitors the thresholds and levers that drive your business strategy. By continuously aligning operations with your defined parameters, we provide clear reporting on the entire business lifecycle — viewed through the lens of technology. This ensures that every operational decision is not only tracked and measured, but directly tied to the value it delivers for your strategy
